Relatives of the family here have
received cards announcing the arrival
of a fine baby girl to Mr. and Mrs.
Horace D. Kilmer at Baltimore,
Maryland, August 10, 1924. Mrs.
Kilmer will be remembered by many
of our readers as formerly, Miss Lucy
Buford Henderson of this place. As
this is the first girl baby to make her
advent in the Kilmer family for four
generations, the young lady is the ob-
ject of much attention.

A family reunion was held at the
home of Mr. and Mrs. Henry Buss
Sunday. Those present besides the
members of the family were: Mr.
and Mrs. W. C. Kroeger and children,
Mr. and Mrs. G. E. Davison, Mrs.
Jane Sheffel, Miss Aurelia Fey, and
Messrs. Ernest and Stuart Haby, all
of San Antonio.

For Sale at a Bargain, a 640-acre
farm, 320 acres in cultivation, rest
in pasture but all tillable, three ten-
ant houses, two good wells, all fenced,
15 miles south of Hondo and 1 1/2
miles north-east of Yancey. Also a
14-acre tract in south part of town
of Hondo. Apply to L. J. Schmidt,
Hondo.

Friends here of Prof. and Mrs.
Guy T. Newton have received cards
announcing the birth of a baby girl
on August 25th, 1924, at Cameron,
Texas. The young lady weighed 8 1/2
pounds and has been christened
Doris Elinor.

Mr. and Mrs. Hugo Schweers and
children came up from Somerset and
were week-end guests of relatives
and friends in Hondo and vicinity.
They returned to Somerset last Mon-
day afternoon.

Cotton was bringing around 24 1/2
cents in Hondo Friday morning.
Shipments for the week up to Thurs-
day afternoon, 372 bales. Thus far
this season, 1116 bales.

Mr. and Mrs. Edwin Earnest and
children, returning from an outing in
the hill country, stopped over here
Wednesday on a visit to the lady's
father, Mr. August Hornung.

Carload shipments for the week
totalled eighteen loads as follows:
Forwarded, 4 cars of corn, 1 of hay,
2 of cotton-seed, 3 milo maize and 1
of oats; received, 1 car of wire, 1 of
coal, 1 of lumber, 2 of cement and
2 of gasoline.

Mr. and Mrs. Pete Koch, Jr. and
children of D'Hanis passed through
here yesterday enroute to Boerne
to attend the Fair. From there they
will motor to Fredericksburg and
other points on a pleasure trip. They
were joined here by Miss Hulda
Nester who is accompanying them on
the trip.

Elsewhere is printed the announce-
ment of R. J. Noonan as a candidate
for re-election to the office of Coun-
ty Judge of Medina County. Judge
Noonan's office has borne an unusual
amount of responsibility for the past
four years, being largely responsible
for the road construction work of the
county incident to the expenditure of
the County's road bond funds. In
this connection, he has been very ac-
tive and successful in securing sup-
plemental funds from the State and
Federal aid. It is a source of much
gratification to his friends that the
Judge is without opposition at the
forthcoming election.

Elsewhere will be found the an-
nouncement of August Kempf for re-
election to the office of District
Clerk of Medina County. Mr.
Kempf has held this office without
opposition for several terms, and that
he fills it satisfactorily goes without
saying.

J. B. Ney announces in this issue
for re-election to the office of Com-
missioner of Precinct No. 4. Mr.
Ney is without opposition for the of-
fice at this time. Mr. Ney has suc-
cessfully filled this office for many
terms.

The Epworth League play, "A Poor
Married Man," given at the Auditor-
ium Monday night was well patron-
ized, and those fortunate enough to
attend were treated to an evening of
high class entertainment.

The continued hot dry weather is
causing the cotton to open rapidly
and cotton pickers are in demand at
good prices.

Commissioner J. B. Ney was over
from D'Hanis Wednesday and paid
our office an appreciated call.

The editor of this paper never maliciously offends another's feelings and it grieves us to disagree with any one. But in the role of editor of a newspaper it is impossible to avoid doing so at times and unless you can accord us the privilege of disagreeing—and that very emphatically—you will save both your own and our feelings by ceasing to be a patron of the paper. We try to give you value received when we sell you subscriptions or advertising in this paper, but that is all. You will never see in your puny vision money enough to buy our silence when we wish to speak or to make us trim what we say. If you can't be our patron on that basis we do not want your patronage for we can accept it on no other and retain our self-respect or deserve the respect of even you. If those who "can't", therefore, buy our paper will cease troubling their neighbors by borrowing theirs and will call around at this office we will save them from making a nuisance of themselves to their neighbors by lending them a copy from our files to read, and provide a stool for them to sit on while reading it. We strive to please.

Some little excitement was caused last Friday night when a telephone message brought news that the derrick of the Lampasas-Bisbee Co. was on fire. The chemical truck of the Hondo fire department went down, but its services were not needed as Mr. Johnson, of the oil company beat the truck down there, climbed the derrick to the location of the fire and put it out without any trouble. The fire originated from a hot box. But slight damage was done, prompt repairs were made but drilling is temporarily stopped as casing will have to be set on account of caving.

August Hornung returned from his visit to his daughter, Mrs. Hendricks, at Boulder, Colorado, last Sunday, tired but happy. He says he had a great time, his daughter and son-in-law doing everything possible to add to his pleasure. They took him on many automobile trips to points of interest, went wherever they suggested except one instance where it was necessary to climb the hurricane deck of a pony to visit a point inaccessible to autos. Here is where he bucked. Of course he was not afraid to ride but perhaps he was suspicious that should those people up there see him on a horse they would bring all the bronchos for him to break. He says Colorado is a great State, the sugar belt, wheat and potato crops being fine, and while the sun is hotter up there than here, in the shade it is delightfully cool, heavy bed covering being necessary at night in Boulder. However, other parts of the state are not so favorable as to climate. He is already planning other trips to that part of Uncle Sam's homestead before a great while.

August Weynand has been nervous ever since Tuesday evening. He was on the train from which Rendon was taken, and when he saw those armed men he thought he was in for a hold-up. If August could have slipped off that train before learning the facts, and had his Star there, he would have made that train coming down Dunlap hill with an open throat look like it was standing still beside the speed he would have made to Hondo.—because the Star can run!

Charley Gaines was an extremely busy man this week, and it was probably due to this fact that the editor had any space left for his use. But as an editor we believe Anvil Herald readers will pronounce Mr. Gaines a big success when they read his signed articles. Mr. Gaines has some big bargains for Anvil Herald readers. Is proud of his goods and does not hesitate to call the attention of the public to their merits.

LADIES' FORTY-TWO CLUB.

Mesdames Earl Boon, Chas. Finger and Geo. Heyen very delightfully entertained the members of the Ladies Forty-two Club Thursday afternoon. Six tables of players participated in the games, of which thirteen were played.

Mrs. F. H. Schweers, by annexing ten games, won high score. Among those contesting for low score were Mrs. O. H. Miller, Mrs. R. W. Spee and Mrs. Felix Batot each winning four games.

Mrs. Elmer Charles de Montel of Wichita Falls was a club member for the afternoon.

A color scheme of white and green lent an atmosphere of coolness and freshness that was a marked contrast to the intense heat of our doors. A delicious refreshment course of angel-food cake, which was iced in green, and green and white brick ice-cream was served to the guests after the games. Besides hostesses, the following were present: Mesdames Earl Starnes, R. Speece, F. H. Schweers, Leo Schweers, Oscar Schuehle, Alice Hart, W. O. Rothe, R. J. Noonan, J. Meyer, E. C. de Montel, Gar Martin, M. H. Muennink, Harry Riman, O. H. Miller, Sadie Hutzler, John Finger, F. Davis, Frank C. rell, Felix Batot, L. J. Brucks, Bert Dendele and Miss Lucille de Montel.

The hostess for the next meeting will be Mrs. L. E. Heath, Mrs. Finger and Mrs. Sadie Hutzler.

Ina No. 6, and the last of the tract wells of the Trinity struck oil at around 912 feet, said, by those who have visited be a very good well, although test has yet been made. We stand, however, that the well carried on down several feet to see what is lower. As this in what is regarded as a promising territory, no one doubted the fine oil, and this well adds to the territory some half a mile of the other wells now drilling reach the interesting stage for months unless it is the Metzger. While this well has oil considerable difficulty is being experienced water.

**ZEN
of the
Y.D.**

By ROBERT STEAD

A romance of the ranches
of western Canada, writ-
ten by one who is an ex-
pert in his knowledge of
the region—who makes
you feel its atmosphere
and enjoy personal con-
tact with its people.

A quick-moving story of
dramatic power. A con-
flict of human desires and
passions. A story of mod-
ern life, told with courage
and honesty and with
rare understanding of both
sides—the man's and the
woman's. A story that
shows how splendid life
can be in the great open
places.

WITH THE DRILLERS.

The great 20-inch drill of the Lampasas Bisbee Oil Co. is on its way to subterranean depths in search of the liquid wealth their geologist has told them underlies their location. This well, the nearest drilling to Hondo, will be the center of attraction for our people for the next four months, as everyone expects the company to tap a great reservoir of oil and add millions to the wealth of Medina county. The company has the equipment to go to a great depth, and this is just what every one has been wishing for—a deep test. We understand it is the purpose of the company to put on a double shift as soon as it can be arranged for. We know we have shallow oil and hope soon to have it demonstrated that a great pool lies at a greater depth.

The Kone & Willis Co., with another great rig has spudded in on the Murphy-Fusselman ranch. With a derrick 112 feet high and a hole of 18 inches, this company will send the drill down to at least a depth of 3,500 feet if necessary, in search of the hidden wealth geologists say is under its location. What makes this test as well as that of the Lampasas-Bisbee Co. of unusual interest is the fact that should both find pay sand it will prove up quite a large area, as the two wells are between four and five miles apart and nearly on a direct line east and west. We understand the Kone-Willis Co. also have a light rig on hand. Should the big drill encounter a shallow sand the small rig will be put in commission to develop it. The big rig is after gusher oil and will not develop shallow sand, leaving this for the small rig. This company, too, we understand will operate a double shift.

Ina No. 6 and the last under contract by the Trinity drillers, was down about 100 feet last Saturday, the last information we had. This well is 600 feet north, and 500 feet east of Ina No. 5. As this location is in proven territory the question is not whether they will strike oil but how much.

The casing for the Metzger well, on the Ward tract, after a long delay, has finally been received and Mr. Metzger is busy cleaning out the well to make a test. However, we learn he is having a good deal of trouble with his boiler, and we are unable to say when a test will be made.

The well at the High Point Structure is down some 2,700 feet—near the Edwards line—but we are unable to say anything as to the indications. This well is some distance from Hondo and there is but little passing between its location and the town. This well is in the interesting stage and the next few days will tell the tale. This location is strictly in wildcat territory, and should it come in as a producer it will largely extend the field.

This should have appeared last week, but was crowded out.

MRS. EARNEST ENTERTAINS
W. M. U.

The W. M. U. of the Baptist church met at the home of Mrs. W. J. Earnest on Thursday afternoon, Aug. 28th. An interesting lesson was ably led by Mrs. W. C. Brown, the topic being "Christ's Healing and Delivering Ministry"; the missionary topic being "The Negro in Our Midst". A special feature of the program was a song by Billie Fuselman and a reading, written by a negro, by Wilma Humphrey—both in costume.

After the lesson a social hour was spent and refreshments consisting of cake and ice cream served to eighteen members and visitors.

FOR SALE.

The F. L. Durbon place, on the highway in D'Hanis, is for sale cheap and on reasonable terms if desired. Place consists of about four acres of land, 4-room house, outhouses, two good wells, windmill, 1800-gallon galvanized tank, water piped all over place. All fenced into convenient lots with hog and chicken proof fence. For price and further particulars apply to the owner in D'Hanis or to Fletcher Davis, Agent, Hondo, Texas.

THE BOERNE FAIR.

The Boerne Fair is now on and people are going for miles and miles to attend. Those who have attended report the exhibits and entertainment fully up to standards and worth a visit.

Thousands will visit the Fair tomorrow. Join the throngs, meet your friends and enjoy a day of pleasure and recreation.

Don't miss the Boerne Fair. It is now on.

ARRESTED ON OLD CHARGE.

Manuel Rendon is in the county jail and will have to answer to an indictment charging him with murder. Some five years ago Rendon was living in the Yancey section. Following an argument that began in a store between a party of four young Mexican, the quartet left the store and went to the gin house. Later Guadalupe Contreras was found stabbed to death and the other members of the party gone.

Ever since the homicide the officers have been on the alert for Rendon. After leaving Yancey he went to Mexico. When the officers were about to effect his arrest someone "put him wise" and he left for other parts—unknown. He returned to this country and for the past several years has made his home in Nebraska, Michigan and Canada.

By some means they are not giving out the officers learned that Rendon would be on the train Tuesday and would get off at Dunlay. His mother lives on the John Muenink farm, near Quihi Switch, and they learned he was coming to visit her. Sheriff Eader and Deputies Charles Schuehle and C. J. Bless and Levi Edwards organized themselves in a reception committee to meet Rendon, and instead of visiting his mother he was brought on to Hondo and placed in the county jail.

Wednesday the officers went to Yancey and took into custody, Manuel Martin and Andrews Garcia, charged with being accessories of Rendon in the homicide, and they, too, are in the county jail. The date for the examining trial has not been set, and the nature of the evidence on which Martin and Garcia are being held has not been divulged. A bill of indictment was returned by a Medina county grand jury several years ago against Rendon.

All deny being guilty, each one, claiming the other responsible for the homicide, and it will take the court to decide who is the guilty one, or whether all are implicated. The officers have kept Martin and Garcia under surveillance all these years, but as they showed no intention of leaving the country, deemed it inexpedient to take them into custody until they could get Rendon. Rendon says he was here a little over a year ago on a visit to his mother, but made his get away before the officers got wise as to his presence.

SCHOOL OPENING.

Hondo Independent Schools will open Monday at 9 A. M. Sept. 8th 1924.

There will be a short program rendered. Addresses will be made by some of our citizens. Representatives of the Parent-Teacher Association will be present and all of the members of the Board of Trustees. Miss Irene Saathoff will render a few selections of violin music.

All citizens of the community are requested to be present and especially the Patrons as the success of the school depends largely upon their interest and co-operation.

Chief Justice Supreme Court:

Cureton, 387,199; Wear, 280,004.

THE RUN-OFF PRIMARY.

The run-off primary election, while quiet and orderly in Medina County, brought out one of the largest votes in the county's history, as will be shown by the tabulated vote printed elsewhere. An examination of the

figures for the state show a similar result for the entire state.

With the ticket of our choice winning from top to bottom and by large majorities, we would not be human not to be pleased. But the moral victory far transcends the victory of any individuals. Everybody—save Zeke Marvin—concedes it an overwhelming defeat of the minions of the would-be and self-styled "invisible empire". Even Tom Love admits it, and has eliminated himself from the national Democratic Councils as "gracefully" as it was possible for him to do.

That the result was as we expected also goes without saying. We have believed that sooner or later the people would be aroused to a realization of the menace of the Ku Klux Klan, and that when they did, they in their better judgment, would repudiate it in unmistakable terms. We have worked in season and out, and with

no inconsiderable loss of patronage from some, to bring about this awakening, and if we have contributed in any small measure to that achievement the result is ample compensation. Being neither a candidate for office nor a seeker for a job, we expected nothing more. And we are satisfied.

ESSEX COACH

Built by Hudson

Genuine Balloon Tires
Standard Equipment

The outstanding buying choice this year is "Closed Car Comforts at Open Car Cost." The Coach alone provides them. It is exclusive to Hudson and Essex. Everyone knows it gives highest closed car value. And because no other type or car shares its position it is the largest selling 6-cylinder closed car in the world.

Genuine Balloon Tires Enhance World's Greatest Value

Naturally when balloon tires had established their superiority Hudson and Essex would adopt them. They are now standard equipment. They add an even greater measure of riding ease, steadiness and good looks to the notable values of the Coach.

You see the Coach everywhere in increasing numbers. Everyone wants closed car comforts. They will no longer accept half-utility when all-year usefulness and comforts cost no more in the Coach.

Consider how the growing trend to closed cars affects resale values. The diminishing demand for open cars means far faster depreciation in that type. As the wanted type, the Coach maintains exceptionally high resale value.

In workmanship, materials and design both Hudson and Essex are of one quality—built in the same factories, under the same patents. Your choice between them will rest solely on the price you want to pay.

50 Years Of School In Medina County

In 1874 the trustees Mimke Saathoff, John Reitzer and F. F. Muench, of Quibi district No. 2, erected the first public school building in the county. It was situated near the old town of Quibi. Since it was not centrally located the county board refused to accept it, so the architect, Bernhard Brucks, had to move it one mile further east before the board would accept same. In the other districts buildings were rented for school purposes. Courses of study were prepared by the county supervisor, and certain texts were adopted for the schools. The equipment of the schools was rather meager, the desks were of rough lumber and each had a seating capacity for four children, and if the attendance was regular, the teacher had to crowd as many as six to the seat. A course of natural history was required for the intermediate grades. Arithmetic, geography, reading, writing and spelling were considered the fundamental studies. Music, singing and dancing were prohibited in the public schools, and if these were taken under private tutors, and interfered with the regular school work, then said pupil's excuse was not accepted and he had to abandon the idea of becoming an artist in the finer arts.

Previous to the building of the Southern Pacific Railroad, the county did not make the progress in any line as many of the eastern counties did. It was considered in every sense the "Wild Southwest," where the Indians made frequent raids upon the settlements, stole their stock, and in many instances killed the citizens, then made their escape into the "hill country" before a posse could be organized to frustrate the attack.

The moonlight attacks of the red man did not deter the citizens in their progress in redeeming the fertile lands and making them the homes of a peaceable, law-abiding, liberty-loving people, who held the torch of civilization high that it might illumine the darkest recesses of ignorance, and through their schools remove illiteracy from their midst. Their ambitions have been crowned with success in every particular, many of the natural resources are being developed, railroads built, telephones erected, highways constructed. Towns and villages grew up and their influence radiated in every direction.

Since in a democracy all things wait on education, we pride ourselves that the schools of the county have the backing of splendid agricultural opportunities and improvements, immense wealth production, the best home life, splendid health conditions, intelligent citizens, efficient government, social justice, splendid churches and a church-going people, fraternal orders, constructive leadership, and good community life. They permeate every avenue and angle of the educational institutions of the county. The remotest rural school receives as much in proportion from the educational departments as do the affiliated schools of the independent districts. The educational leaders believe that in order to keep the child on the farm we must give it the same opportunities as the city child enjoys. The 32 rural schools are fully equipped to take care of the child.

Most of the buildings are modern and conform to the plans laid down by the State Department of education. This is evidenced by accompanying pictures of buildings. We have employed in the rural districts 54 teachers, and in three independent districts of Hondo, Devine and D'Hanis, we have employed 28 teachers, making a grand total of 82 white teachers for the schools of the county. The certification of these teachers is as follows:

Second grade certificates, 16; first grade certificates, 45; permanent grade 20; 19 schools employ one teacher, nine employ two, one employs three, two employ four and one employs six. The independent district of Hondo has 12 teachers. Devine has 12 and D'Hanis has four. There are five parochial schools in the county located at Hondo, Devine, D'Hanis, Castroville and LaCoste. A school of Seven-Day Adventists is located at Yancey.

In 1923-1924 the scholastic population of the county was 3,802, divided as follows: Medina County rural, 2,508; Hondo independent, 579; Devine independent, 510 and D'Hanis independent 205. Of this number about 75 per cent attended school. The foreign element, Mexicans, have no permanent abode, hence do not attend school. The apportionment allotted for these Mexicans helps materially towards extending the school term to eight or nine months. Of the 32 school districts, 27 have maintenance taxes ranging from 10 cents to 70 cents on the \$100 valuation. Three districts have bond issues. The three independent districts have bond and maintenance tax.

Of the individual schools the Devine schools rank highest in the county. This is due to the exceptional opportunities offered the pupils in domestic art and vocational training, to the splendid co-operation of the entire citizenship of the community, and the capable men who serve as members of the board of trustees who are always willing to make sacrifices for the best interests of the boy or girl. Within the school we find an enthusiastic, energetic, efficient, wide-awake, progressive corps of teachers who carry out the plans of the superintendent and the board of trustees. The school has 21 units of affiliation. Many of the graduates have finished colleges and universities and now hold responsible positions of trust and honor in State and Nation.

Hondo independent school follows closely the Devine High. It, too, has full affiliation with the first-class colleges and universities of Texas. The curriculum is extensive. The English Department deserves special mention for the four-year work done, as outlined by the State Department of Education for affiliation. The board of trustees are planning to incorporate in the curriculum a course in domestic art and fine art for the girls and a course in vocational training for the boys. The board is a believer in thoroughness, and therefore strives to employ instructors who have college degrees, a splendid example for other trustees to follow. The P. T. A. has done much for the school, and is a great help to the faculty; it may be termed the connecting link between the teacher and the home.

D'Hanis independent school is beginning to realize the importance of a stronger faculty. The board has employed its fourth teacher and before the school begins may make it one more. A strong commercial department means much to the boys and girls of this school. The opportunities for a big school at D'Hanis are unlimited. Many of its resources are yet undeveloped. Thousands of acres of virgin farm lands are still in the raw state, untouched by plow or hoe. The school covers 10 grades. The faculty is composed of strong college and normal instructors. Application to the State board will be made next year.

Of the rural schools, Yancey receives first mention. It is a consolidation of four districts, comprising about 142 square miles of territory. A large per cent of the children drive in cars or with horse and buggy to school. This gives the children an unqualified advantage, for in the large standard school they enjoy social and instructional privileges not possible to obtain in a small school. The building is fully equipped with the best school apparatus. On the campus are two teacherages, one for the superintendent and one for the lady teachers. The school covers 11 full grades. Practical agriculture is taught through the four years of high school. This department receives Federal and State aid, and has employed a specialist in vocational agriculture to teach the boys the interesting things in farm life. The domestic art department also deserves special mention. This course likewise covers a period of four years. Home-making is stressed in this department. The girls learn the art of cooking, canning, sewing, interior decoration and other particulars pertaining to good homes. The instructor of this department is a specialist recommended by the department.

Experience has proven that the study of agriculture and domestic art belong in every progressive school and that it can be made interesting and profitable in any live school community if efficient teachers are the instructors and live methods are employed. Natalia, in the heart of the Medina Valley irrigation lands, is another consolidated district. Its growth has been slow, due to the unsettled legal phases of the lands. Too many of the tillers of the soil of this immediate section are Mexican renters who work for "halves" for the landlord. As soon as the land matters will be fully settled this school will rank with the best in the State. The farming and trucking opportunities are unlimited. The school employs four teachers. The district transports 35 children in trucks at public expense. The school is fully equipped and application for classification has been made to the State Department.

LaCoste district No. 3 maintains the nearest four-teacher school that can be found in the State. In 1913 a bond issue for \$10,000 carried almost unanimous. The town of LaCoste now boasts of a modern, two-story brick building, "paid up". The school covers 10 grades. The graduates from this school find no trouble in entering higher institutions of learning. Several of the graduates are now teaching in the county.

Castroville district No. 1, with three teachers, is doing a wonderful work for the boys and girls of that little "burg". Last term the school graduated six boys and one girl in the 10th grade. The two-teacher schools of the county conform in every particular to State plans and regulations. The curriculum covers nine grades. The graduates of these schools find no trouble in entering the affiliated schools and doing the work prescribed. The county maintains a few one-teacher schools. Due to the sparsely settled conditions in several communities, consolidation would not be popular or practical. Still, remarkable improvements have been brought about in an effort to give the pupil of the small schools all the advantages possible to obtain within the restrictions entailed by abridged means and numbers. Many of these small schools enjoy the privileges of the big schools; they have splendid libraries, Victrolas, pianos, playground equipment, and other essentials to make school life real for the boy or girl.

The schools function a marvelous effect upon the community social life. The auditoriums and school houses are used as centers for neighborhood meetings. On these occasions the entertainment is supplied by teacher pupils, trustees, county superintendent and other speakers that volunteer their services to the cause of education. These meetings vary in entertainment, but all serve the same purpose, i. e., to arouse the genuine aggressive school spirit. These meetings are attended by hundreds of people from far and near, who hear, with interest, various school questions discussed, and the advantages stressed for better buildings, equipment, etc. These discussions are always sandwiched in with selections of music and readings, and are greatly enjoyed and conducive of much good to school and community.

Calomel GOOD BUT NEXT DOSE MAY SALIVATE. It is Mercury, Quicksilver, Shocks Liver and Attacks Your Bones.

Calomel Salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you.

FARM LOANS.

The Hondo National Farm Loan Association, H. E. Haass, Secretary-Treasurer, Hondo, Texas, representing 176 borrowers, with \$688,480 borrowed, is prepared to make farm loans anywhere in Medina County under the Federal Farm Loan Act at 5 1/2 per cent interest and 1 per cent 33 year amortization repayment plan. Thirty-three thousand Texas farmers have taken advantage of this system of borrowing over ninety million dollars. Why not you? You may borrow for any purpose provided for in the Act, as a farmer only.

SATURDAY, AUGUST 30, 1924.

STANDARDIZING THE RURAL PRESS.

The first Texas Press Exhibit is today a small item in the history of Texas journalism. It was held at the A. & M. College during the Farmers' Short Course, July 28 to August 2. It was sponsored by the Agricultural Writers' Association of Texas, which convened at the A. & M. College at that time for its third annual meeting.

As it is with most every new project, the press exhibit was not thoroughly understood by any one because no one connected with it had ever before tried to conduct a press exhibit. But when the time came for the contest, the judges had to hunt around and find the papers that came nearest fitting their improvised score card. The result was the first place was awarded the Troup Banner, prize \$25.00.

Second place was awarded the Harlingen Star, prize \$15.00.

Third place was awarded San Saba Star, prize \$10.00, with honorable mention given to the Wellington Leader and the Cameron Enterprise.

The committee in charge this year wishes to thank every one of the papers that helped make this first exhibit the beginning of a bigger, better day for rural journalism. Let's standardize the rural press. Let's have a definite goal. Let's have a score card to guide our efforts this coming year. Let's run our newspaper business on as intelligent and scientific basis as the poultry business and see if we can not raise the standard of the home paper until every family in the county will be glad to raise their subscription price in order to have a better home paper in their home.

That the rural press is among the greatest educational forces of our State or any State is a universally accepted fact. The very fact that it is the cleanest publication, the most far-reaching publication and in thousands and thousands of homes the only publication or educational institution that touches the life of those homes, makes it all the more essential that there should be a standard and a high, well balanced standard toward which every county weekly should strive.

But is there a definite standard? Is there a definite goal toward which every one of the 740 county weekly newspapers in Texas is steadily climbing?

The Texas press exhibit proved there was not. Dr. Walton, head of the Extension Service, which is strictly a work for the rural population of Texas, offered \$50 in prizes to find out which rural paper in the State was giving the most fair and best balanced service to all its patrons. And the very first problem to face the judges was the fact "There is no standard in Texas by which to measure rural press." There are score cards for the best loaf of bread, the little club girls. There are score cards for the best loaf of bread, the best can of tomatoes, the best biscuits, the best and most convenient kitchens. The score cards to direct them in judging poultry, grain and livestock. They know what to look for in a good hen or pig or cow. But how in the name of Texas were those judges to judge those 19 county weekly publications, when there was nothing on which to base their judgments, nor by which to make their comparisons? Do you suppose there is such a thing as a balanced newspaper in the State? A county weekly or a State daily that tries to serve all its patrons in a fair way and gives a balanced mental ration to its readers every day or every week, according to their local needs?

Do you think having a score card for the most appropriate school dress for Texas girls has been of any value to either the girl or the dress? Do you think it has raised the standard of the country school girl or the city school girl? Do you believe such a plan has been a help to the dry goods business? Do you think the introduction of a score card for the judging of grain, livestock or poultry has in any way improved the breeds of poultry, pigs, cows, sheep, cotton, wheat and every other farm product? Do you think having a fixed standard of perfection for all these different products of the soil has in any way spirited a higher standard and a more intelligent class of youthful farmers for our State? Well, then, if it pays to create standards and score cards for poultry, livestock, grain, or for school dresses and bread, tomatoes and convenient homes, don't you believe it would pay to standardize the rural press? If it makes better products to have a goal ahead, why would it not make better publications to have a goal ahead? And if it inspires self respect and dignity and a higher grade of intelligence among our Texas boys and girls to be struggling year after year to reach those standards with their products, why would it not inspire a higher type of self-respect and intelligence on the part of the publisher to be struggling to make his paper reach a definite standard?

The A. & M. College is so sure of this that it is willing to work with the rural press of Texas this coming year in an effort to survey and standardize the rural press of the State. And a permanent committee will soon be announced to direct the work. This was the greatest outgrowth of the rural press exhibit. But in order to get the thing going the judges of the A. & M. press exhibit improvised the first score card in the State for rural newspapers.

Those judges were G. H. Alford, editor Progressive Farmer; Frank R. Phillips, Director Agriculture, West Texas State Teachers' College; M. J. Webb and Fletcher Davis, rural

editors in Texas. The first score card had two divisions:

1. General Points of Excellence, which counted 50 points.
Under this heading was style
of make-up..... 15 points
Local, General News and Editorials..... 25 points
Advertising..... 10 points

Total..... 50 points
II. News of General Service to farmers, 50 points, based on the fact that at least 50 per cent of the subscribers to the county weekly were farmers. In some instances the per cent ran as high of 75, 85 and 90 per cent farmers. Under this heading came dairying, marketing, crop growing, livestock, rural education, community activities, home improvement on the farm, and everything of special interest to the rural readers. But as none of the 30 publications in the contest had been published on any special standard, the judges had to hunt around and find the papers that came nearest fitting their improvised score card. The result was the first place was awarded the Troup Banner, prize \$25.00.

Second place was awarded the Harlingen Star, prize \$15.00.

Third place was awarded San Saba Star, prize \$10.00, with honorable mention given to the Wellington Leader and the Cameron Enterprise.

INSURANCE OBTAINED AFTER YEARS' DELAY

TUBERCULOSIS SUFFERER GETS OVERDUE HEALTH POLICY.

Through Efforts of Red Cross Technicalities Are Overcome and Money Is Sent to Beneficiary.

A check for \$960 drawn by the North American Accident Insurance Company in favor of Robert L. Elder of Florence, Colorado, has just closed an unusual case in which the American Red Cross succeeded in overcoming many technical difficulties and obtaining for Elder the amount of a health insurance policy to which he was entitled.

The case extends over a period of four years. Elder was insured for health and accident in 1919, was taken ill with influenza the next year, the policy still being in force. A short time later the representative of the insurance company to whom Elder had given his notification of illness, became involved in an affair with another insurance man which resulted in the death of one and the imprisonment for manslaughter of the other. Elder made several attempts to have the case reopened but the company would not do this, standing on the technicality of lack of proper notification. The policy provided that claims must be made within twenty days following sickness and as the affair between the two insurance agents had suspended the business of the company in that town, Elder's notification was not passed on to the company. Elder's illness continued and eventually developed into pulmonary tuberculosis.

Being unable to get any satisfaction himself, Elder finally turned his policy over to the Secretary of the Fremont County Chapter of the American Red Cross and the case was reopened in the name of the Red Cross with successful results. A great amount of effort and much painstaking investigation was necessary to establish the facts required by the insurance company, but this was done at last to the complete satisfaction of the company and the money now has been paid to Elder.

The American Red Cross has many similar cases not only of ex-service men who have not received their compensation or insurance but of civilians as well and there is not a time when some such case is not on the docket in every one of the 3,900 Chapters of the Red Cross in the United States. Home Service is one of the 12 services under which the American Red Cross lives up to the international Red Cross motto, "I Serve."

To Stop a Cough Quick

Take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 35c. Just ask your druggist for HAYES' HEALING HONEY.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

ROTHE DISTRICT NO. TWENTY-SEVEN.
(P. O. Tarpley, Texas.)

From Directory, Medina County Public Schools.

Nestled among the mountains of upper Medina County, with varied scenery in our community, such as canyons, ravines, bluffs, gorges, mountainsides of various colors at different times of the year, with murmuring brooks of clear water, so made by the cool springs and with the richest farming lands in Medina County, the Rothe School is afforded one of the best locations in the county.

The people in this locality are thrifty and prosperous. Those in the farming line give their attention almost exclusively to the production of corn and oats. Chickens, turkeys and hogs are also extensively raised. In fact we may say that this locality is the second Cuero in turkey production. The stockmen have been more fortunate than stockmen elsewhere, for when the prices of cattle reached a crisis, they fell back on their sheep and goats which have piloted them safely on in the direction of prosperity.

Now the school in this, such an excellent community, must needs be also an excellent school. Although we have not reached our highest

ROTHE SCHOOL, DISTRICT 27.

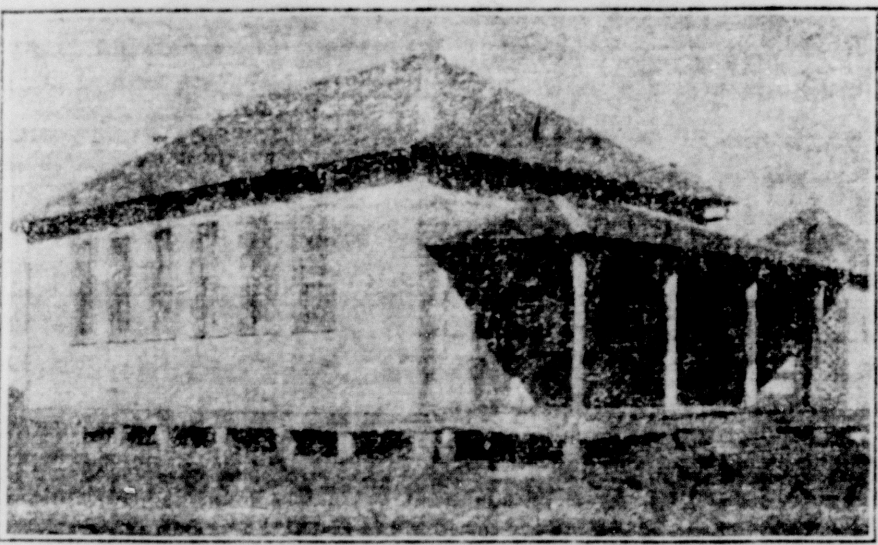

ambitions, being few in number, we are continually looking upward to the time when we can speak with pride of our school.

The first part of the present school-house was built in the year 1908 with an addition in 1910. Home-made desks were used for the first six years.

The teachers of the school in order from the time of its erection up to the present time are as follows: Miss Minnie Tillie and a Miss Risinger taught the first term. The teacher of the second term was Adolph Oefinger. Miss Myrtle Hay taught the third, fourth and fifth terms. Miss Travis taught the sixth term. E. S. Rieber taught the school for the seventh, eighth and ninth terms. Minke Mueenink taught the tenth term. The teacher of the eleventh term was Miss Ruby Nowlin. E. S. Rieber taught the 1919-20 term. The teacher of the term of 1920-21 was Miss Catherine Padgett. E. S. Rieber again taught in 1921-1922. In 1922-23, Miss Mayme Caddell taught. The present teacher is E. S. Rieber with Mr. Isaac Clark, Mr. Aug. Sprott and Mr. Willie Sprott as trustees.

The school has a special tax voted of 50c, levied 15c, and is fairly well equipped.

Term 8 months, Salary \$75.00, certificate First Grade.

KINCHELOE SCHOOL, DISTRICT 28.

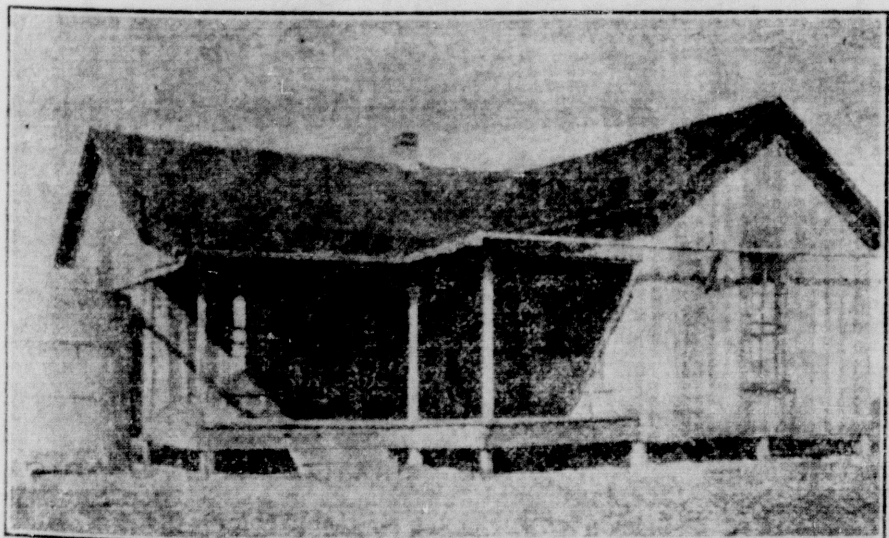

KINCHELOE DISTRICT NO. TWENTY-EIGHT.
(P. O. D'Hanis, Texas.)

This district is located in the extreme western part of the county. It is mostly a farming country. The farms may be termed plantations. Thousands of acres are under one management. Most of the work is done by hired Mexican labor or renters on halves. This is a hindrance to both the lands and the progress of the community. Progressive home-seekers would find this an ideal place to locate. The Old Spanish Trail and Southern Pacific Railroad pass east and west through the northern part. The Seco Switch is in easy reach of the farmer and is the logical shipping point for this district.

The School District was organized in the year 1910 by A. L. Braden and Dan Polk. The first school house was built by the Southwestern Land Investment Company, and was used for three years.

Miss Pauline Matthews, holding a Second Grade certificate, was employed as first teacher, receiving a salary of \$35.00 per month for 5 months.

As the District became more thickly settled, a special tax of 10c was voted, and the present school house was built—a modern up-to-date building. In 1915, a school house was built for the Mexicans; and in 1922, a 3-room teacherage was built. Three acres of ground belong to the school—one acre being given by Mr. Ross Kennedy, one bought from him for \$40, and one given by T. E. Johnson. The school buildings have a valuation of \$2,000.00, furnishings \$300.00.

KINCHELOE TEACHERAGE, DISTRICT 28.

The school is equipped with a \$150.00 library, wall maps, Texas and United States History charts, Primary charts and first class blackboards. School grounds have tennis and basket ball courts. The water supply is from underground and top ground cisterns. All this property was paid for by the special tax.

At present two teachers are employed for a term of 9 months. The Principal, holding a Permanent Certificate, receives a salary of \$120.00 per month; the Assistant, holding a First Grade Certificate, receives \$75.00 per month.

The school is located 2 1/2 miles south of Seco Switch on the Southern Pacific Railroad and Old Spanish Trail, and is surrounded by heavy black hog-wallow land.

The board of trustees are Mr. A. G. Hise, Mr. A. E. Saathoff and Mr. A. L. Braden.

Teachers	Term, 9 months	Salary	Certificate
Mrs. A. F. Reinhart,		\$120.00	Permanent
Miss Lois Miller,		\$75.00	First Grade

LANGFELD DISTRICT NO. TWENTY-NINE.
(P. O. Hondo, Texas.)

The Langfeld school is situated about sixteen miles southwest of Hondo. The district comprises about twenty-five square miles of territory.

About one half of the lands are rough and hilly, especially adapted to raising cattle and the bee industry. The Huajillo shrub found in this section produces the best honey in Texas. Thousands of pounds of honey are produced in this vicinity. The lower part of the district is rolling and has large farms worked mostly by Mexican laborers. The section offers splendid opportunities to those seeking better agricultural lands. The soil is sandy, and produces all kinds of grain crops. The school has less than ten scholastics in attendance, but it has accomplished

LANGFELD SCHOOL, DISTRICT 29.

some excellent work. The students receive individual attention through their courses. The school is too distantly located to make consolidation convenient, possible and practicable.

The present board of trustees are Mr. H. W. Butts, Mr. Henry Butts and Mr. Tom Bendele. The buildings are modern.

The teacher is Miss Caro Fusselman. Term, 8 months. Salary, \$80.00. Certification of teacher, First Grade.

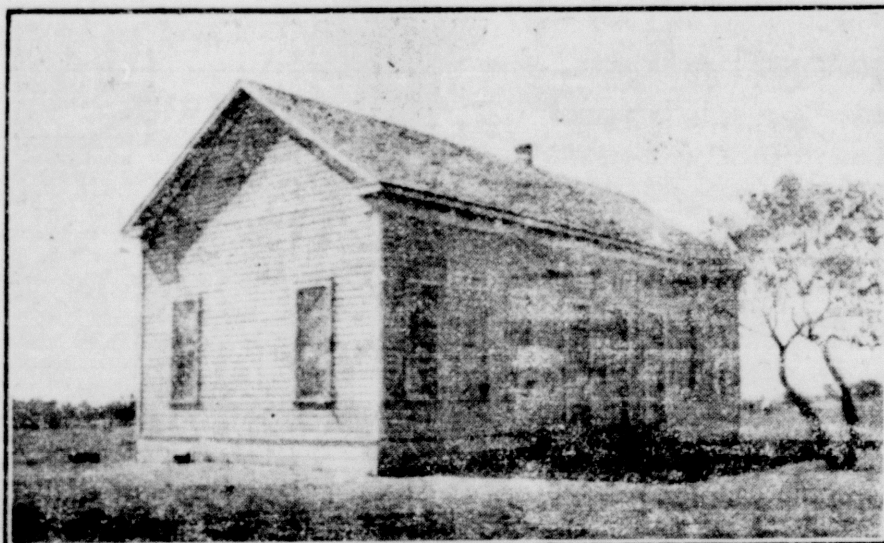

Scholastics 66. Enrolled 15. Could provide a splendid school by voting a maintenance tax.

NEW FOUNTAIN DISTRICT NO. THIRTY.
(P. O. Hondo, Texas.)

New Fountain School District No. 30 is situated about six miles north-east of Hondo. The school was established in 1876 about two miles south-east of its present location where it was moved to in 1906. Up to 1911, it remained a one-teacher school. In that year another room was added; and since then, two teachers have been employed.

This section of the county is noted for its vast agricultural products, the most important of which are corn and small grain. It can be seen that this part of the county is very progressive by the appearance of the homes.

These people are practically all German-Americans, speaking both languages fluently. Like their ancestors, they pride themselves on being both home and land owners. They are co-operative in every respect, and are always willing to do their part in the uplifting of their community. This community has organized a Parent-Teachers Club and prides itself on having one of the best in this county. It has done won-

NEW FOUNTAIN SCHOOL, DISTRICT 30.

derful work for the benefit of the school, and its plans for the future are encouraging.

The trustees are Mr. Geo. H. Wiemers, Mr. Fritz Saathoff and Mr. L. A. Gerdes.

The work of the school is carried on under the able and efficient supervision of Miss Elsie Schweers, Principal, and Miss Marie Foster, assistant. They are untiring in their efforts to make the school a success. They have endeared themselves to both patrons and pupils by their sterling qualities.

Term, 8 months. Salaries, \$100.00 and \$75.00 respectively. Certificates, First Grades.

The school needs a larger local maintenance tax. Ten cents is the present levy.

U.S. Royal Cords

BALLOON ~ BALLOON-TYPE ~ HIGH PRESSURE
Built of Latex-treated Cords

TIRE building took a big step forward when the makers of United States Tires invented the Latex Process.

The added strength and wearing quality given by Latex-treated cords is something that the user of Royal Cords can tell you about from his own experience.

Royal Cords are the standard of value in cord tire equipment—even more certainly today than ever before.

And this holds good whether you are considering a High-Pressure Tire, a Balloon-Type Tire to fit your present wheels and rims, or a Balloon Tire for a 20 or 21 inch wheel.

QUIHI NOTES.

Last Sunday was a day of special joy at Bethlehem Lutheran church. The Holy Communion was given to the recently confirmed class of 12 catechumens. It surely is an occasion full of meaning when such a number of young men and women are added to the communicant membership of a congregation.

Next Sunday divine service will be held at the New Fountain Lutheran church at 10 o'clock. All are cordially invited to any and all services at this church.

Sunday, Sept. 7th will be a day of great interest at Bethlehem Lutheran church. On this day the annual "Missionfest" will be celebrated. Rev. A. L. Wolff of San Antonio and Rev. G. Langner of Knippa will be the speakers of the day. Both are recognized a smen of ability and doubtless will make splendid addresses. The church choir too will add much to the interest of the day.

Several dozen of first class folding chairs have been ordered for the Quini Lutheran church and evidently will be here and ready for use on Mission Sunday.

CITATION ON APPLICATION TO SELL REALTY.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Medina County, Greeting:

You are hereby Commanded to cause to be published once each week for a period of twenty days before the return hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Medina County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the estate of Chas. G. Bendele, Deceased. H. F. King, Administrator de bonis non has filed in the County Court of Medina County an application for an order to sell the following property of said estate, situated in Medina County, Texas, to-wit:

167 acres of land known as Survey No. 1259 1/2, patented to the Heirs of Anton Desolmes by Patent No. 146, Vol. 38, on August 8th, 1870.

160 acres of land known as the S. E. 1/4 of Section No. 2, Cert. No. 1-882, original grantee B. S. & F.

610 acres of land known as Section No. 154, Cert. No. 122, originally granted to H. & B. Ry. Co.

640 acres of land known as Survey No. 153, patented to J. B. Davenport by Patent No. 136, Vol. 39, on July 16th, 1879.

1070 acres of land, more or less, out of survey No. 423, patented to Ed. de Montel and J. D. Gillis, assignees of Harry Gribbs, by Patent No. 507, Vol. 5, on July 22nd, 1884.

125 acres of land, more or less, out of survey No. 1267, patented to Ed. de Montel and J. D. Gillis assignees of Minerva Morris, by Patent No. 126, Vol. 6, on June 6th, 1885.

The last two mentioned tracts of land being all of said surveys No. 423 and 1267, lying East or South-east of a straight line running from the east corner of Survey No. 1266, A. B. & M., to the N. E. corner of Survey No. 236, H. E. & W. T. Ry. Co., and being all of said surveys except the parts sold by W. J. Davenport and J. D. Gibbons, to C. B. Davenport by deed, dated Sept. 25th, 1909.

All of said land being the same land conveyed to L. A. Stiegler and C. G. Bendele by J. D. Gibbons and wife by deed, dated October 2nd, 1916, recorded in the Deed Records of Medina County, Texas, in Book A. No. 52, on pages 500-501, the interest of the said L. A. Stiegler therein having thereafter been transferred to the said C. G. Bendele which will be heard at the next term of said Court, commencing on the first Monday in October A. D. 1924, the same being the 6th day of October, A. D. 1924, at the Court House thereof, in Hondo, Texas at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Hondo, Texas, this 21st day of August, A. D. 1924.
